

Marketing News

The number of "Smart" Fire Risk Assessments has now passed 40,000.

"We are very pleased with the continued take-up of our "Smart" products" commented Trilogy Group Managing Director Alex Dare "I am very proud of our hardworking team, headed by Laura, who have risen to the challenge in tough economic times"

Trilogy will be presenting our enhanced portfolio of "Smart" cloud based Risk Management solutions at the Retail Business Technology Expo at London's Earls Court exhibition centre. The "Smart" products are available in both single business premises and multiple corporate premises' versions. Whilst the core products are based on the same "Smart" Q&A engine, the corporate version provides for enhanced branch-based reporting and compliance monitoring and a number of flexible licensing arrangements.

Staff News

We are delighted to welcome onboard new members to the Trilogy "Smart" products team. Wayne, Gemma and Jonathan will report to Operations Director, Laura MacKenzie and assist in selling and supporting the growing number of "Smart" customers.

Technical Matters

A new format of Fire Risk Assessment report has been designed to keep up-to-date with changes in working practises and legislation. These new features and enhancements on the base system are provided as part of the annual licences with no additional charges.

Contact Information

The new "Smart" products website is available at www.firesmart.co.uk. For general questions email info@firesmart.co.uk.
SME and administration enquiries please contact Laura MacKenzie on +44 (0) 1242 222132 or email laura_mackenzie@trilogygroup.com
